

# THE COMPASS 360

New SAT and ACT Score Ranges  
for 360 Colleges and Universities

# COMPASS

We lead the way.

Students taking the new SAT need to be able to determine how their scores fit into the competitive landscape of college admission. A new SAT score is not equivalent to the same score on the old SAT and must be translated via a concordance. Colleges will not report new SAT scores from enrolled students until spring 2018, and guide books will not include the new figures until summer 2018.

In the meantime, Compass has compiled the estimated new SAT score ranges for 360 popular colleges and universities, public and private, chosen to represent a wide array of four-year post-secondary institutions in the U.S. The new SAT scores you will find in the pages that follow represent the most recently reported old SAT scores translated via concordance into new SAT scores.\* You can use these estimated new SAT ranges, as well as the actual ACT ranges, to better understand the typical test scores of enrolled students. These scores should not be viewed as cutoffs or qualifying scores.

This list is intended as a broad snapshot of the competitive landscape of college admission, viewed through the lens of test scores. Students taking a holistic approach to their college search will undoubtedly consider many other wonderful colleges not included in this list. However, the analysis can be similarly applied to other colleges using the concordances and information found at [compassprep.com/profiles](http://compassprep.com/profiles).

For more information about college admission testing, please visit [compassprep.com/guide](http://compassprep.com/guide).
